Wound Care Made Incredibly Easy! UK Edition

Julie Vuolo MA, BSc, Dip HE, RN, LPE, Senior Lecturer, University of Hertfordshire

Wound Care Made Incredibly Easy! - the fifth title in the UK published *Made Incredibly Easy!* Series - contains a wealth of essential wound care information for nurses. Written by recognised experts, it focuses on the needs of nurses who are new to wound care practice, covering all the fundamentals of wound care including wound healing, wound assessment, cleansing and dressing selection and adjunctive therapies. It also has dedicated chapters on diabetic foot ulcers, pressure ulcers and vascular ulceration.

Wound Care Made Incredibly Easy! UK Edition includes a chapter dedicated to accountability and legal issues. A must for every pre-registration and newly qualified nurse, this chapter includes sections on the role of key organisations such as the NMC and NICE, healthcare quality control mechanisms, patients' rights and the fundamentals of litigation.

Drawing on current UK and European guidance, the book is soundly rooted in current standards of practice making it an important source of information for any nurse new to the field of wound care in the UK.

Psychiatry / Psychology / Psychopharmacology & Substance Abuse
Disparities in Psychiatric Care, Clinical and Cross-Cultural Perspectives
Pedro Ruiz, Annelie Primm

This book offers evidence-based clinical approaches for understanding disparities in the provision of mental-health services in the U.S. and other industrialized nations.

Chapters address the availability and barriers to care among various ethnic populations and the roles of their cultures, languages, and religions as they affect diagnostic and treatment approaches. Issues related to special populations such as migrants, refugees, incarcerated individuals, and the homeless are discussed. The book also addresses issues related to gender, sexual orientation, and age. Brief sections on training, education, and policy will lay the foundation for assessing evidence-based approaches and outcomes in these diverse populations....
