

Fundamentals of Surgical Pathology

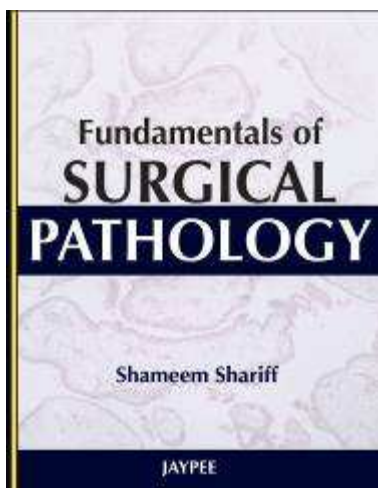

Shameem Shariff MD (Pathology), PhD (Pathology),
Professor of Pathology, MVJ Medical College & Research Hospital,
Bengaluru, Karnataka, India

This clear and concise reference book on surgical pathology is written for the pathologist who needs a well structured guide on specimen procedure and covers protocol for reporting results.

Key Points

- Images of gross and microscopic pathology with correlating appearance of normal morphology
- New sections provide points of differentiation between lesions with similar microscopic morphology
- Includes model histopathology reports, suggesting mandatory criteria in histopathologic reporting
- New section on Synoptic Histopathology Reporting and Minimum Data Sets outlines the responsibilities of a reporting pathologist in conveying to the clinician all relevant data for patient management
