## Management of High Risk Pregnancy A Practical Approach

**SS Trivedi** MS, FICOG

Director, Professor & Head of Dept, Obstetrics & Gynecology, Lady Hardinge Medical College & SSK Hospital, New Delhi, India

**Manju Puri**

Professor, Lady Hardinge Medical College & SSK Hospital, New Delhi, India

The book deals with the management of high risk pregnancy, describing the practical aspects of diagnosis, complications, treatment and follow up in a structured and easy to understand manner. Written by obstetricians with extensive experience in the field, the book discusses the diagnosis and management of high risk pregnancies in the developed and the developing world

### Key Points

- Discusses evidence based management and includes chapters on critical care in obstetrics, thromboembolism, HIV infection & other challenging situations in pregnancy
- Adopts a problem oriented, practical approach to with flow charts and management algorithms for easy reference.
- A 'must have' book not only for busy obstetricians who seek practical solutions to challenging situations in obstetrics but also for students who need a comprehensive book on complex obstetric situations
