ZIPPY DEEDOO

A 3-level English course for 3-5 year-old Pre-School children

by Laura Irons and Laura Rossetti

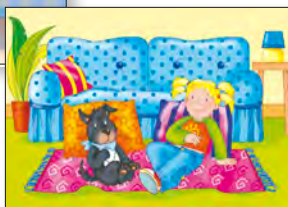

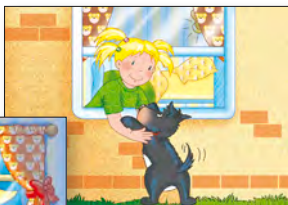

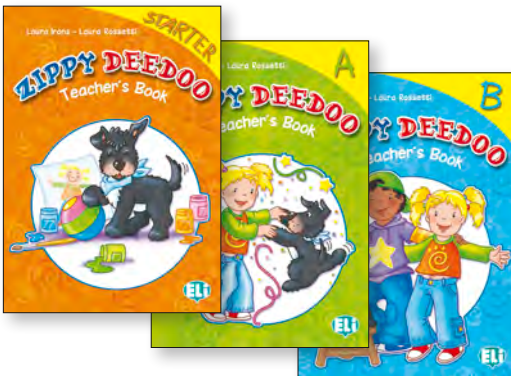

Beginner to Elementary

Common European Framework

Level A1

AUDIO CD

Based on the adventures of Zippy, a clever dog, Deedoo, a fun little girl and Kabir, a sweet and thoughtful little boy.

Zippy Deedoo introduces communication in English and develops long-term memory and linguistic skills appropriate to the age range. Children learn to understand the global meaning of a story, repeat short expressions, follow simple instructions, introduce themselves, say hello and goodbye, pronounce the names of several items of food, clothes and colours, as well as basic language structures related to everyday life.

FOR THE STUDENT

Student's Book

Topics are introduced via short stories based on children's daily lives, thus allowing youngsters to learn English in a relaxed and friendly atmosphere.

A highlight of the course is Story Time — motivating stories involving the characters, which are ideal for presenting topics, lexis and simple structures. Memorisation and communication is achieved through Game Time in which young learners interact with their fellow pupils and overcome emotional barriers such as shyness or the fear of making mistakes. Sing & Dance Time allows the child to involve both mind and body in language learning and creates a fun and playful atmosphere.

FOR THE TEACHER

Teacher's Book

Contains a clear explanation of each lesson with teaching sequences specifying timing for each activity.

It also includes transcripts of the audio CD, ideas for drama and games, craft activities, cross-curricular and extra-curricular links as well as worksheets to be included in the Portfolio, and an end-of-year certificate.

Audio CD

The three CDs (one for each level) contain dialogues, chants and simple songs followed by their karaoke versions.

Storycards (A and B)

These storycards illustrate the scenes from the stories and make storytelling fun and immediate. An excellent tool for communication and memory games.

Flashcards (A and B)

Present vocabulary in a fun and efficient way.

MERRY TEAM

A 6-level English course for Primary School children

by Mady Musiol and Magaly Villarroel

Beginner to Pre-Intermediate

Common European Framework

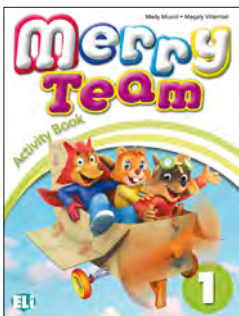

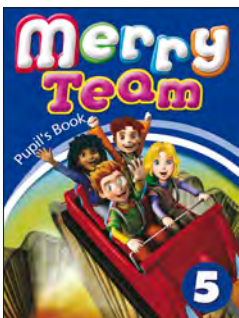

Level A1-A2

AUDIO CD
DVD

IBW

Merry Team is a 6-level English course for children in Primary School which covers the curriculum requirements for English.

DURATION

Each level of the course offers sufficient material for between 80 and 90 lessons, including evaluation. Each lesson takes approximately 45 to 60 minutes, but the Teacher's Guide provides suggestions for extending or reducing lessons.

AIMS

The general aim of the course is to teach English as a means of communication and to develop young learners' knowledge of a different culture. For this reason, language is presented within a context and the children are given the opportunity to use it in a pleasant, motivating and supportive atmosphere.

In this way children feel that they can understand and do things in English, thus developing not only their ability to communicate but also their self-esteem and general education.

TOPICS

Each unit of the book is developed around a specific topic chosen to reflect the age and developing interests of the children. The topics cover aspects of the real world as well as imaginative themes. In levels 1 and 2, topics focus on the children, their immediate world and daily experiences.

In levels 3 and 4, they start branching out into the wider world and include cross-curricular activities. Levels 5 and 6 are a continuation of the previous levels and provide a bridge to secondary education.

PROGRESSION AND SKILLS

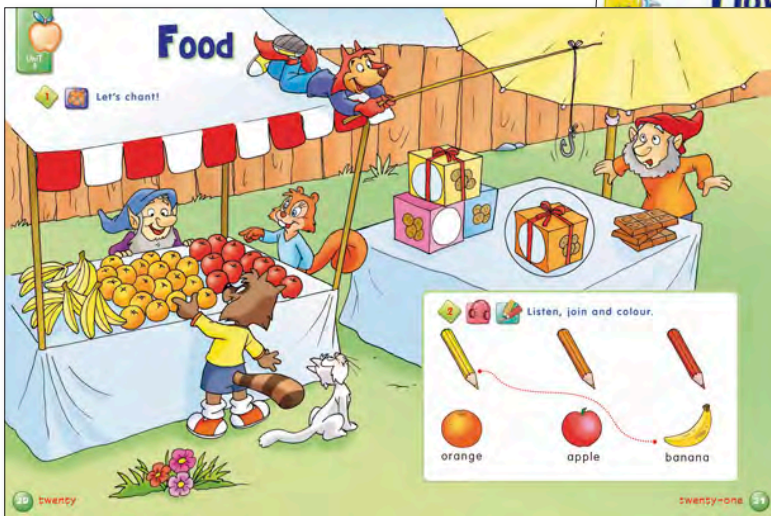

The aims of levels 1 and 2 are to provide children with non-verbal strategies for communication, a core vocabulary that they will recognize and the self-confidence necessary to produce it whenever they can.

In level 1, children concentrate on pre-reading and pre-writing activities, which are expanded in level 2 to include a small amount of writing.

In levels 3 and 4, core vocabulary is expanded and all four skills are covered, although priority is given to the receptive skills of listening and reading. Oral teacher-pupil and pupil-pupil interaction is encouraged.

In levels 5 and 6, verbal communication is expanded and the number of reading and writing tasks increases.

By the end of level 6, children have acquired the strong grounding that will prepare them for English at Secondary School.

Digital Book

The complete course is available in a digital version (one for each level), to be used in the classroom with an Interactive Whiteboard (IWB), or for self-study at home on the student's own computer.

The teacher can turn the pages on the screen, play the dialogues to the students, show the videos and do the exercises in class. Extremely simple to use, the Digital Book groups all the resources and teaching tools in one multimedia location.

THE MAGIC BOOK

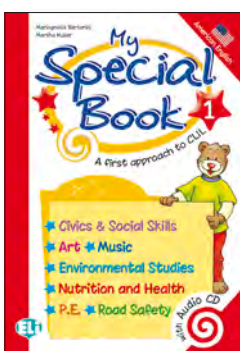

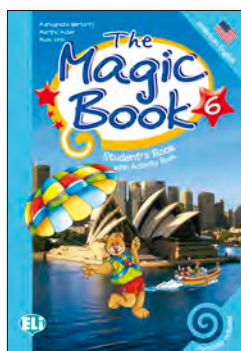

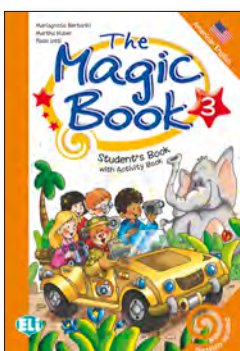

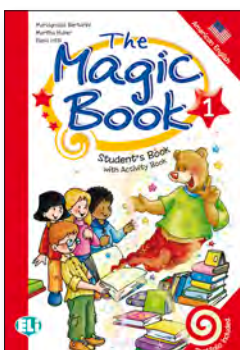

A 6-level American English course for Elementary School children

by Mariagrazia Bertarini, Martha Huber, Paolo Iotti

Beginner to Pre-Intermediate

Common European Framework

Level A1-A2

The Magic Book is a 6-level American English course for Elementary School children. Children will be caught up in an atmosphere full of imagination where they will learn English in the company of four fun-loving friends and the unforgettable magical bear, Benjy.

STRUCTURE OF THE TEACHING PROGRAM

The Magic Book refers to a book that four children — Nick, Molly, Eddy and Jenny — find by chance. Magically, Benjy the Bear comes to life from out of the book and stays with the children to guide them through the next six years of learning. Each level of the course offers between 80 and 90 lessons, including evaluation; each lesson will be expected to take approximately 45 to 60 minutes.

PROGRESSION AND SKILLS

The structure of *The Magic Book* 1 and 2 is similar: each unit begins with a story to introduce new words and language structures. It offers an animated song, and ends with games to practise the linguistic material presented. In *The Magic Book* 2, Benjy presents the English alphabet. *The Magic Book* 3 and 4 maintain the original structure and playful approach of the course, but present some new elements (photographic images, grammar strips, creativity and sound corners) in line with the children's growth and development.

The Magic Book 5 and 6 give the children the opportunity to reflect on what they have already learned and to elicit grammar rules. *The Magic Book* 6 is also enriched by a number of pages on culture and civilization from English-speaking countries. The sixth volume guides the children towards the competences of Level A2 in the Common European Framework of Reference (pre-intermediate level). In addition, it can be a useful tool to prepare children for English certification exams (Trinity, Cambridge) for elementary school levels.

NEW 2012
IWB Softwares

Change Up! is a new topic-based 2-level course specially created to accompany learners in the transition from basic users into independent users of English.

The innovative methodology of *Change Up!* starts with authentic materials and guides the student in the discovery of the language. It is characterised by three central moments:

- > **Experience:** an immersion in authentic language through the reading of written texts or listening to spoken documents;
- > **Discover:** a guide to reasoned discovery of the structure of the language used in real contexts;
- > **Communicate:** a guide to the use of the structures in order to communicate naturally.

Pre-intermediate Workout: a 15-unit volume which serves as revision or consolidation of the lexis, communicative functions and grammar structures of levels A2-B1.1.

Student's Book

The Student's Book is divided into three Topics. Each Topic is made up of three Units and ends with a Towards Certification section, providing activities and advice for the preparation of the FCE exam, and pages dedicated to Self-Evaluation.

- > **Grammar Reference:** a 22 page grammar reference section with tables and descriptions of the structures presented in each unit.
- > **The Inward Eye:** an approach to literary texts to bring students, from whatever type of school or study, closer to English Literature and to offer a brief panorama of literary production in English.

Workbook

The Workbook is available with or without answers and audio transcripts. It aims to consolidate the grammatical and lexical input from each unit, to suggest learning strategies, to prepare for the FCE exam, to allow self evaluation. Included in the appendix of the Intermediate Workbook is a Writing File containing models of written texts according to FCE specifications, and in the Upper Intermediate level there is a section entitled FCE Practice Plus, containing a complete model of the FCE exam.

Teacher's Book

The Teacher's Book gives suggestions and didactic tools to create exercises at varied levels of difficulty. It also provides the answers to the Student's Book, Workbook and Pre-Intermediate Workout exercises and the audio transcriptions.

Teacher's Resources contains extra material for the teacher in the form of pre-punched photocopyable worksheets inserted into a ring-binder in order to allow a continual update of the material.

5 Writing Business Emails

The most common form of written communication in business is email (electronic mail). Therefore, the ability to use email well is very important for anybody working in a company. If you already use emails to communicate with friends, you know how many advantages it has.

1 This is a list of some advantages of communicating by email. Match the beginnings of the sentences to the endings.

<p>1. Sending emails is fast and —</p> <p>2. You can send emails any time and —</p> <p>3. You can attach files.</p> <p>4. You can send emails wherever you are —</p> <p>5. You can send the same email to —</p> <p>6. Using emails saves the time of printing, copying and —</p> <p>7. You can store your emails and find them quickly when —</p>	<p>A (no matter how "heavy" they are).</p> <p>B a large number of people.</p> <p>C you need them.</p> <p>D distributing information to many people.</p> <p>E simple.</p> <p>F (but you must have a computer or a smart phone).</p> <p>G anywhere.</p>
---	---

2 Why do business people use emails? Read this interview with a businessman and find 4 reasons he gives for using email.

Interviewer: So, Mr Randall, let's talk about your relationship with your computer. Could we say that you can't live without it?

Tim Randall: Absolutely! I don't do anything and I don't go anywhere without it. I travel a lot and I hate talking over the phone. So everything related to my work I do with my computer.

I: But what do you do with your computer most of all?

TR: I read and send emails. I can send and read hundreds of emails every day.

I: Hundreds? That's unbelievable!

TR: It's not if you think of how many reasons you have to send or read emails.

I: Tell me about it.

TR: Well, first of all I send information to customers, to colleagues. And of course I receive information from them. Then, giving instructions. For example to people who work for me.

I: And do you ever use emails for appointments or do you use the telephone for that?

TR: Sure. I use email to fix or change appointments. And I also use emails when I need to send documents, like offers or reports.

He uses email to:

- 1 To _____ and _____
- 2 To _____
- 3 To _____ or _____
- 4 To _____

5

Like any document, an email has a standard format. It is organised in different parts.

3 Look at this email and label the parts correctly.

FOCUS ON...

Charlotte Brontë (1816 – 1855)

English novelist, Charlotte Brontë, was the third child of six born to Reverend Patrick Brontë and his wife Maria. When Charlotte was five years old, the family moved to the Parsonage in Haworth – a small tall top town in Yorkshire. Their mother died the following year, and their aunt Elizabeth moved in to look after the children.

School life
At the age of eight, Charlotte was sent away with her elder sisters, Maria and Elizabeth, and her younger sister, Emily, to a newly opened school for girls. Conditions were harsh; Maria and Elizabeth became ill there, and died of horse of tuberculosis the following year. Charlotte and Emily were taken away from the school and, apart from short periods at two other schools, were educated at home. Now the eldest child, Charlotte helped to look after her brother, Branwell, and her sisters Emily and Anne.

Feeding the Imagination
From an early age, the Brontë children invented stories. They created imaginary worlds called Angria and Gondal. They wrote poems, articles and stories based on the adventures of some of the young Brontës' work as the museum next to the Parsonage in Haworth – all in microscopic writing.

Charlotte's stories became increasingly complicated, she was deeply interested in exploring the complex relationships between people. You can see examples of the young Brontës' work in the museum next to the Parsonage in Haworth. Their father encouraged them to learn about the outside world and write in a letter to a friend that he could talk to his children as he could to any adult. Charlotte in particular was interested in poetry, although at the time this was not thought of as suitable interest for a young woman.

Chapter 5

War!

I had a plan to escape. I had to wait for many weeks, but in London my chance finally came. Immediately things went wrong; I couldn't get the king's chains off! The slave master interrupted me. When he went outside I followed him and attacked him in the dark. But the police arrested me and put me in jail". I said that I was a noble's servant. They were afraid of the nobles and let me go. Then I discovered that the other slaves had killed the slave master. They were all in prison, condemned to death!

I found a telegraph station and sent a message to Clarence – Send knights to save the King and I, they want to hang* us! Tomorrow!

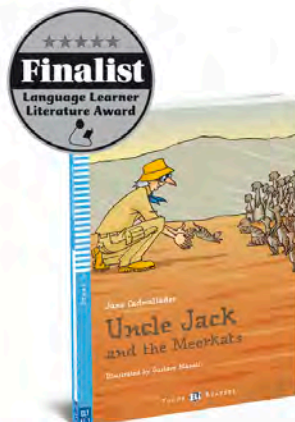

Everyone in London was looking for me. They took the slaves about London to recognize me. Unfortunately one of them saw me. They took me to the other slaves and decided to hang us that day. The knights would never arrive in time. It was too late.
