by Laura Irons and Laura Rossetti

A 3-level English course for 3-5 year old Pre-School children.

For the student

- Student's book Zippy Deedoo Starter
- Student's book Zippy Deedoo A
- Student's book Zippy Deedoo B

For the teacher

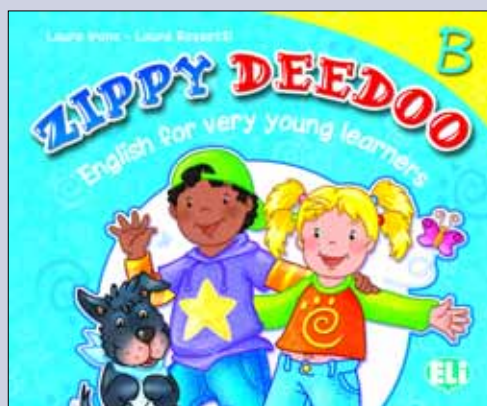

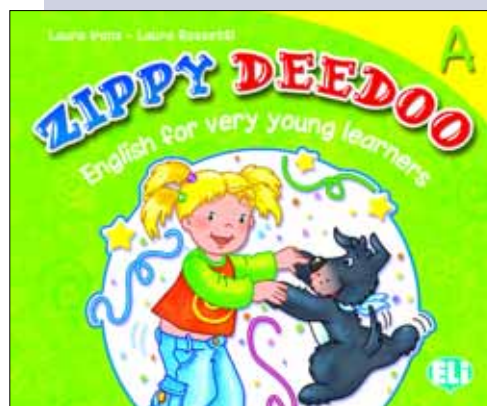

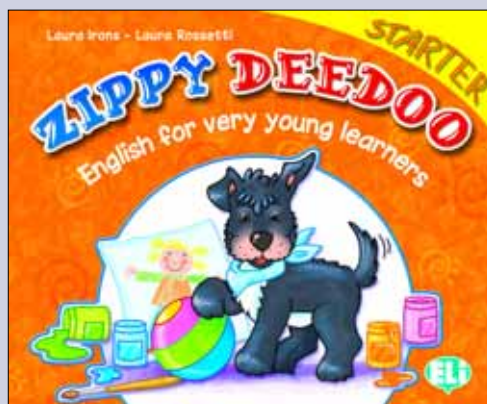

- Teacher's book + 3 CDs Audio
- Flashcards (A and B)

AIMS

Zippy Deedoo introduces communication in English and develops long-term memory and linguistic skills appropriate to the age range. Children learn to understand the global meaning of a story, repeat short expressions, follow simple instructions, introduce themselves, say hello and goodbye, pronounce the names of several items of food, clothes and colours, as well as basic language structures related to everyday life.

NARRATIVE CONTEXT

Based on the adventures of Zippy, a clever dog, together with Deedoo, a fun little girl and Kabir, a sweet and thoughtful little boy.

Based on a 'spiral learning approach' in which children use their personal experiences to gradually acquire and develop linguistic knowledge.

FOR THE STUDENT

Student's books

Topics are introduced via short stories based on children's daily lives, thus allowing youngsters to learn the English language in a relaxed and friendly atmosphere.

A highlight of the course is *Story Time* - motivating stories involving the characters which are ideal for presenting topics, lexis and simple structures. Memorization and communication is achieved through *Game Time* in which young learners interact with their fellow pupils and overcome emotional barriers such as shyness or the fear of making mistakes.

Sing & Dance Time allows the child to involve both mind and body in language learning and creates a fun and playful atmosphere.

FOR THE TEACHER

Teacher's book

Contains a clear explanation of each lesson with teaching sequences specifying timing for each activity. It also includes transcripts of the audio CD, ideas for drama and games, craft activities, cross-curricular and extra-curricular links as well as worksheets to include in the Portfolio and an end-of-year certificate.

CD Audio

The three CDs (one for each level) contain dialogues, chants and simple songs followed by their karaoke versions.

Storycards (A and B)

These storycards illustrate the scenes from the stories and make storytelling fun and immediate. An excellent tool for communication and memory games.

Flashcards (A and B)

Present vocabulary in a fun and efficient way.

Merry Team

A 6-level English course for Primary School children.

For the Pupil

- Pupil's Book
- Activity Book + Audio CD

For the Teacher

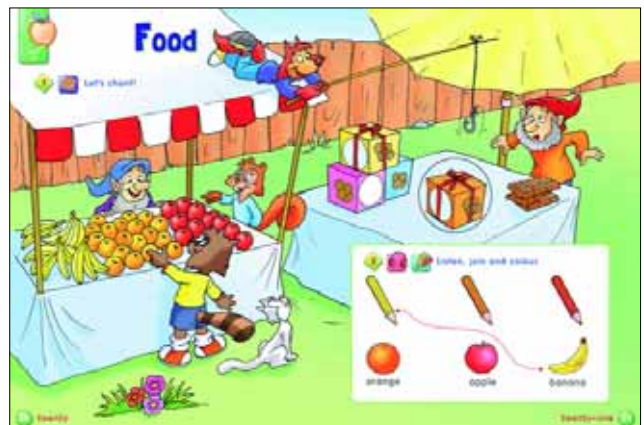

- Teacher's Guide
- Audio CD
- Flashcards
- DVD
- Puppet
- Posters

LEVELS

Merry Team is a **six-level** English course for children in Primary School, who have had some exposure to the language. It covers the curriculum requirements for the English language.

DURATION

Each level of the course offers sufficient material for between 80 and 90 lessons, including evaluation. Each lesson takes approximately 45 to 60 minutes, but the teacher's guide provides suggestions for extending or reducing lessons.

AIMS

The general aim of the course is to teach English as a means of communication and to develop young learners' knowledge of a different culture. For this reason, language is presented within a context and the children are given the opportunity to use it in a pleasant, motivating and supportive atmosphere.

In this way children feel that they can understand and do things in English, thus developing not only their ability to communicate but also their self-esteem and general education.

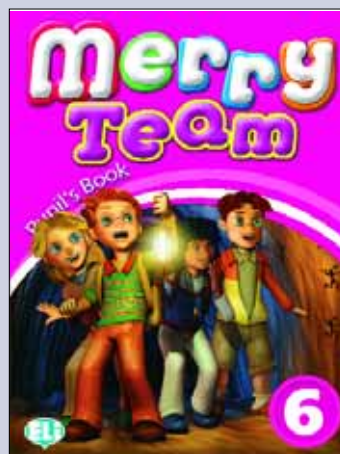

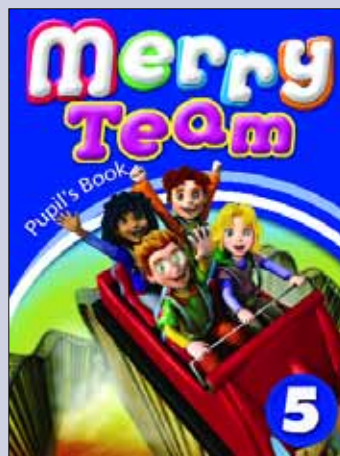

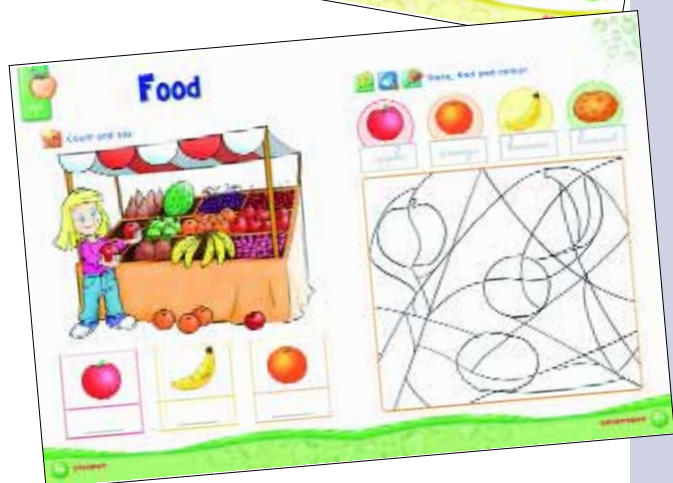

TOPICS

Each unit of the book is developed around a specific topic chosen to reflect the age and developing interests of the children. The topics cover aspects of the real world as well as imaginative themes.

In levels 1 and 2, the topics centre on the children, their immediate world and daily experiences.

In levels 3 and 4, they start branching out into the wider world and include cross-curricular activities.

Levels 5 and 6 are a continuation of the previous levels. In addition, they provide a bridge to secondary education.

Primary Courses

PROGRESS AND SKILLS

The aims of levels 1 and 2 are to provide children with non-verbal strategies for communication, a core vocabulary that they will recognize along with sufficient self-confidence to attempt to produce it whenever they can. The progression between these two levels is gradual and integrates frequent revision, thus providing constant consolidation of the language learnt in earlier lessons. Priority is given to listening and speaking skills, promoting communication between learners.

In level 1, children concentrate on pre-reading and pre-writing activities, which are expanded in level 2 to include a small amount of writing.

In levels 3 and 4, core vocabulary is expanded and all four skills are covered, although priority is given to the receptive skills of listening and reading. Oral teacher-pupil and pupil-pupil interaction is encouraged.

In levels 5 and 6, verbal communication is expanded and the number of reading and writing tasks increases.

By the end of level 6, children have acquired the strong grounding that will prepare them for English at Secondary School.

Also available for levels 1-2-3-4-5:

- Flashcards (for levels 1 and 2)
- Story Cards (for levels 1 and 2)
- Posters (levels 3, 4, 5, 6)
- Benjy hand puppet

AIMS

The primary aim of the course is to create a progressive passage whereby the child describes reality using a new tool (the English language) to redefine his surroundings and reorganize the gained knowledge thanks to the acquisition of a new perspective.

STRUCTURE OF THE TEACHING PROGRAM

The **Magic Book** refers to a book that four children - Nick, Molly, Eddy and Jenny, find by chance. Magically, Benjy the Bear comes to life from out of the book and stays with the children to guide them through the next six years of learning.

The course covers the curriculum requirements for the English language area, based on the Common European Framework of Reference (Level A1/A2): each level of the course offers between 80 and 90 lessons, including evaluation; each lesson will be expected to take approx. 45 to 60 min.; day-to-day teaching notes with reinforcement and extension activities; a rich and varied resource file in each **Teacher's Book**.

PROGRESS AND SKILLS

The structure of **The Magic Book 1 and 2** is similar: each unit begins with a story to introduce new words and language structures, offers an animated song, and ends with games to practice the linguistic material presented. In **The Magic Book 2**, Benjy presents the English alphabet.

The Magic Book 3 and 4 maintain the original structure and playful approach of the course, but present some new elements (photographic images, grammar strips, creativity and sound corners) in line with the growth and development of the children.

The Magic Book 5 and 6 give the children the opportunity to reflect on what they have already learned and to extrapolate some rules relative to sentence structure. **The Magic Book 6** is also enriched by a number of pages on culture and civilization from English-speaking countries. The sixth volume brings the children towards the achievements of Level A2 in the Common European Framework of Reference. In addition, it can be a useful tool to prepare children for English certification exams (Trinity, Cambridge, Toefl) for elementary school levels.

ENGLISH PARTY

by Günter Gerngross and Herbert Puchta

An exciting new four-level course for primary school children.

Written by Günter Gerngross and Herbert Puchta, authors of the international bestseller *Join In, English Party* reflects the latest research in the field of communicative methodology and the teaching of English.

Many of the activities are based on TPR techniques whereby children naturally respond to spoken language through movement.

English Party is easy to use in class as well as highly motivating and enjoyable for both children and teachers. Based on the 'Multiple Intelligences' Theory English Party focuses on the whole child at the centre of the learning process. The activities are based on a multi-sensory approach and respect children's individual learning styles and pace, so that each child is rewarded with a sense of achievement.

New language is presented through fun and motivating songs and rhymes, ideal for improving pronunciation and developing natural intonation.

Cartoon-style characters including *Alex the crocodile* present new language and encourage children to take part in TPR activities.

Cartoons featuring *The Camerons* and *Reading for Fun* are ideal for stimulating reading for pleasure.

AIMS

As the title suggests, the aim of this course is to encourage collaboration to learn English. The word "Team" calls to mind situations where we have to work together, and in this case, collaboration to communicate. The students are constantly and actively involved in the discovery of the language, both in a group and individual environment. The double input of the language allows the dialogues to be short and simple, using a "real" and up to date language.

STRUCTURE

The course is made up of four levels, and is available in two different versions: **Four levels version** and **Starter + levels 1-2-3**. Each level includes the *Student's Book*, the *Workbook* plus an *Audio CD*.

It includes a *Grammar book*, a *Picture dictionary* and three *Readers with audio CD*. Each level includes the *Teacher's Book plus 2 class Audio CD* and two volumes of *Test and Resources with Audio CD* and *CD-Rom Test maker*.

FOR THE STUDENT

The Personal Toolkit

This ring binder is a flexible tool which can be adapted to various uses, it helps the teacher to manage the class with different levels of ability.

The Personal Toolkit is divided into two sections:

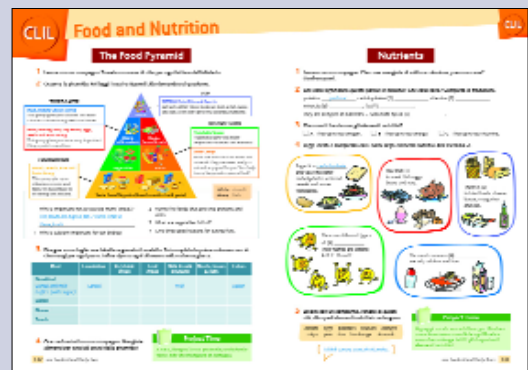

Grammar and Pictionary.

Grammar: 144 colour worksheets that present and expand upon all the arguments presented in the course. Each worksheet has pre-punched holes so that the students can file away their notes and exercises and hence favour and personalise their self-study.

Pictionary: 15 themed tables containing around 600 words and expressions, linked in to photocopiable worksheets included in the *Tests and Resources* book for expanding vocabulary. The *Pictionary* is a booklet with metal rings to allow its insertion into the binder.

Student's book

The *Student's Book of Team up* (levels 1-4 and Levels 1-3 of the Starter version) is divided into 4 folders. Each folder is subdivided into 3 units:

Unit 1

Input 1	Lexis and Function 1	Input 2	Lexis and Function 2	Grammar	Grammar	Skills	Skills
---------	----------------------	---------	----------------------	---------	---------	--------	--------

Unit 2

Input 1	Lexis and Function 1	Input 2	Lexis and Function 2	Grammar	Grammar	CLIL	CLIL
---------	----------------------	---------	----------------------	---------	---------	------	------

Unit 3

Input 1	Lexis and Function 1	Input 2	Lexis and Function 2	Grammar	Grammar	Curiosity Corner	Curiosity Corner
---------	----------------------	---------	----------------------	---------	---------	------------------	------------------

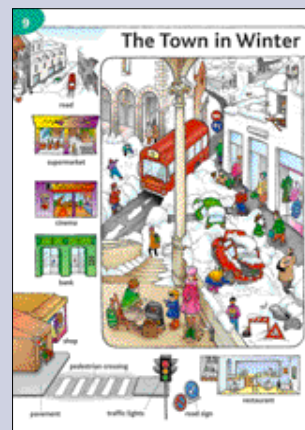

The *Starter Volume* present the same structure without Skills, CLIL and Curiosity Corner pages.

Two double page spreads of Input: Lexis/ functions.

The Unit opens with a large photograph and the first language input consists of a dialogue (or more frequently a reading passage in the second and third volume). The second double page spread follows the same layout as the first, but offers a greater quantity of exercises as well as a pronunciation activity.

Grammar Focus

The double page spread of grammar in the Student's Book guides the student towards discovering and constructing the rules before putting them into practice straight away with functional exercises using the Workbook or the Personal Toolkit Grammar.

Secondary courses

Skills (first unit of the folder)

A gradual path of skills with varied and authentic activities. Students become familiar with KET and Trinity exams style exercises.

CLIL (second unit of the folder)

A double page spread, which offers its own separate didactic path to explore subjects other than the English language. Further activity and reading sheets are to be found in the Tests and Resources book.

Curiosity Corner (third unit of the folder)

A double page “fun” spread, rich with ideas for discovering the reality of the English speaking world and come closer to authentic language.

At the end of each folder the *Check Your Progress* pages contain language revision exercises.

Culture Spot

Four themes of a more traditional nature which pay special attention to cultural comparisons. Each section contains reading passages and activities. More activity sheets are to be found in the Tests and Resources book.

The Workbook

In every unit there are skills activities in order to progressively develop the autonomy of the student. The *Student's CD* offers lots of listening exercises and also the audio version of the reading section. The Study Tips give the students strategies to develop their learning ability outside of the classic classroom situation.

Readers with Audio CD

Levels 1, 2 and 3 include a *Reader with audio CD* to develop reading and listening skills. The website www.teebeat.cc contains lots of extra games, activities and informations on the stories plus a Teacher's Resource Centre.
